

ASSET TRACKER™

Protect high-value assets with customizable GPS tracking

Intended for customer-owned and operated protocol, Asset Tracker™ can protect any high-value asset targeted by thieves. With multiple activation triggers and configurable settings, customers can manage how the device is deployed and the trigger needed, based on the asset being protected.

WHEN THE CRIME OCCURS

Based on customer-chosen settings, Asset Tracker will alert chosen contacts to the crime and report tracking data to the customer.*

*This feature is not available for Asset in Transit device.
