

CLOSED LANE DETERRENT

Effectively prevents unauthorized cart exits with a streamlined, cost-efficient design that integrates effortlessly into your checkout lane system.

The Closed Lane Deterrent Device is purpose-built to prevent pushouts at closed checkout lanes with simplicity and cost effectiveness. Designed to seamlessly integrate into your existing lane closure system, this user-friendly device offers a discreet solution that complements any environment.

FEATURES

- Easily deployed and managed by store personnel
- Discrete, covert design blends with any environment
- Battery operated device with long shelf life
- Audible siren produces a 130dB sound
- Use with existing lane closure chain systems

HOW OUR SOLUTION WORKS

- 1. Suspicious Activity:** A thief approaches a closed checkout lane with a basket of valuables.
- 2. Closed Lane Breakaway Device:** Wren's CLD device seals off the closed lane.
- 3. Built-In Alarm:** The CLD emits a loud alarm when the clasp is broken, signaling a breach.
- 4. Apprehension:** The alarm alerts security and staff to enable apprehension and prosecution.

PROFESSIONAL SERVICES

- Expert support for location design and seamless implementation, ideal for large-scale deployments.
- Installation guides and specifications
- North America customer support
