

The Surveill by 3Si product line delivers advanced video management solutions that enhance situational awareness and business intelligence, enabling rapid event verification and strengthening safety and security.

SURVEILL ENTERPRISE

Advanced Video Surveillance
for Large-Scale Operations

Surveill Enterprise is the Next Generation Video Management Software (VMS) and Situational Awareness platform for unlimited site and server deployments. Servers have the ability to cluster with other servers anywhere in the world. There is no limitation on the number of sites and cameras. Surveill Enterprise has everything you need for your large scale security. That includes redundancy, advanced integrations, and our 2D and 3D visualization engine. It is a True Enterprise Solution that is for mission-critical, large-scale installations. The Surveill Enterprise platform is an ideal solution for any deployments that are on a global scale. Surveill Enterprise was built to accommodate global deployments. Surveill Enterprise is truly scalable with the ability to perform simple actions like viewing cameras across multiple sites to managing updates across your entire organization.

WHY SURVEILL ENTERPRISE?

CUSTOMIZABLE

Customize your VMS with added support for integrations using the open platform SDK architecture.

SCALABLE

A system that has everything you need for a fraction of the cost.

SECURE

Surveill Professional provides the support you need to protect against internal and external threats.

Distributed Environments

A single pane of glass view of your security sites all in one convenient dashboard.

Unlimited Device Support

Ultimate scaling capabilities for multiple sites. Add or remove any device as needed.

Alarm Management

Link alarms with site maps to gain precise visual representation for on-site personnel.

Simple Licensing

Perpetual licensing, buy once and have access for the lifetime of the investment.

Tailored to You

Surveill Professional provides the added benefit of a customized environment, offering integrations with non-certified, third-party solutions.

Open Platform

Add video analytics, access control, or other third-party devices to build a comprehensive security approach.

PROFESSIONAL SERVICES

- Expert support for location design and seamless implementation, ideal for large-scale deployments.
- Installation guides and specifications
- North America customer support
