

SURVEILL

BY **3Si**

The Surveill by 3Si product line delivers advanced video management solutions that enhance situational awareness and business intelligence, enabling rapid event verification and strengthening safety and security.

SURVEILL PROFESSIONAL

The Easiest Solution for
Smaller Businesses

Surveill Professional is the Video Management Software(VMS) platform for a single site, multi server (up to 5 total servers) video surveillance deployment. The Surveill Professional package includes 2D maps and integrations. It is ideally suited for a small-to-medium-sized business with a large number of cameras that requires a reliable, secure video management solution. Surveill support is included at no charge for the first month after the initial purchase.

WHY SURVEILL PROFESSIONAL?

CUSTOMIZABLE

Customize your VMS with added support for integrations using the open platform SDK architecture.

AFFORDABLE

A system that has everything you need for a fraction of the cost.

SECURE

Surveill Professional provides the support you need to protect against internal and external threats.

One Site

Single-site deployment with 24/7 access to your camera streams, event monitoring, and archived recordings.

Up to Five Servers

We give you the option to add multiple server support up to 5 servers for small-scale or single-site deployments.

Flexibility

Flexible capabilities integrating with unlimited camera channels so every access point is covered and no event is missed.

Alarm Manager

Get a comprehensive 360-degree view of all the alarms and alerts across your security environment.

Simple Licensing

Perpetual licensing gives you freedom. Buy once and have access forever, giving you greater flexibility and security.

Tailored to You

Surveill Professional provides the added benefit of a customized environment, offering integrations with non-certified, third-party solutions.
